May 1986 **ACM SIGAPL APL Quote Quad , Proceedings of the international conference on APL**, Volume 16 Issue 4Full text available: [pdf\(745.55 KB\)](#)Additional Information: [full citation](#), [abstract](#), [references](#), [citings](#), [index terms](#)

Most attempts to introduce graphic support into APL are limited to handling the composition and presentation of pictures. This paper proposes a model and a formalism encompassing also the other phases of a graphic dialog. The proposal involves a logical extension to structured programming, and is based largely upon already existing or hidden elements of
